OFFICE OF FAIR HEARINGS

[Redacted]

PETITIONER,

AHCA Case No.: 22-FH2153

vs.

AGENCY FOR HEALTH CARE
ADMINISTRATION,

RESPONDENT.

_____ /

FINAL ORDER

Pursuant to notice, the undersigned convened a telephonic Fair Hearing on the instant case on February 14, 2023, at 9:04 a.m. Eastern Standard Time ("EST").

APPEARANCES

For the Petitioner:

[Redacted]

Petitioner's Authorized Representative

For the Respondent:

Suzanne Chillari
Medical/Health Care Program Analyst
Agency for Health Care Administration

STATEMENT OF ISSUE

The issue is whether Respondent proved by a preponderance of the evidence that Respondent's decision to terminate Petitioner's Behavior Analysis ("BA" or "ABA") services was correct.

PRELIMINARY STATEMENT

All parties and witnesses appeared telephonically. Petitioner’s Authorized Representative and provider [REDACTED] appeared on behalf of Petitioner. [REDACTED] [REDACTED] attended as a witness for Petitioner.

Suzanne Chillari (“Ms. Chillari”), Medical/Health Care Program Analyst for the Agency for Health Care Administration (“Agency” or “AHCA”), appeared on behalf of Respondent. Dr. David Bicard (“Dr. Bicard”), Board Certified Behavior Analyst at the Doctoral Level and Director of Clinical Operations for eQHealth Solutions Inc. (“eQHealth”), appeared as a witness for Respondent.

Petitioner did not introduce any exhibits at the hearing. Prior to the hearing, Respondent sent to the Office of Fair Hearings and Petitioner a one-hundred and sixty-seven (167)-page evidence packet and a forty-nine (49)-page evidence packet. The one-hundred and sixty-seven (167)-page packet appears in the Office of Fair Hearings’ document management system as the file title “[REDACTED] FH 02.14.2023.pdf” The forty-nine (49)-page evidence packet appears in the Office of Fair Hearings’ document management system as the file title “Agency Evidence Legal Authorities 22-FH2153.pdf”. Absent an objection from the Petitioner, the undersigned admitted the one-hundred and sixty-seven (167)-page evidence packet into evidence as Respondent’s Composite Exhibit 1 (“RCE 1”) and the forty-nine (49)-page evidence packet into evidence as Respondent’s Composite Exhibit 2 (“RCE 2”).

FINDINGS OF FACT

1. Petitioner receives Medicaid services on a fee-for-service basis from the Agency. eQHealth is a Quality Improvement Organization contracted by the Agency to review prior authorization requests for services. See page 2 of RCE 2.

2. [REDACTED]. See page 21 of RCE 1. Petitioner is diagnosed with [REDACTED] Combined Type. *Id.* As provided in Petitioner’s Individualized Education Plan:

The Strength of the student

Based on general education teacher’s observation and input, [Petitioner] can answer “wh” questions orally about stories and passages read aloud in class with prompting. [REDACTED] is able to copy sentences from the board with prompting and assistance. In the area of Reading, based on the results of the i-Ready Diagnostic test administered on [REDACTED] [Petitioner] obtained an overall score of [REDACTED] [REDACTED] in the Comprehension of Informational text domain. In the area of Mathematics, the i-Ready Diagnostic test administered on [REDACTED] revealed that [Petitioner] was able to [REDACTED]. [Petitioner] obtained an overall score of [REDACTED] on the Math i-Ready Diagnostic test. Parent stated that [Petitioner] has a strong number sense and can do math at home.

...

Page 87 of RCE 1.

3. As provided in the Behavior Analysis Reassessment (“Treatment Plan”), Petitioner is engaging in the following maladaptive behaviors: [REDACTED]; [REDACTED] [REDACTED]. *Id.* at 56-60. As provided in the Treatment Plan, Petitioner’s incidents of maladaptive behaviors, for the period of May 7, 2022, through October 8, 2022, are as follows: for [REDACTED], Petitioner’s incidents increased from approximately [REDACTED]; [REDACTED], Petitioner’s incidents decreased from approximately [REDACTED]; for [REDACTED] Petitioner’s incidents decreased from approximately [REDACTED]; for [REDACTED], Petitioner’s incidents decreased from approximately [REDACTED]; for [REDACTED], Petitioner’s incidents increased from approximately [REDACTED]. *Id.* at 61-64.

4. Petitioner successfully implements [REDACTED] replacement behaviors, for the period of May 7, 2022, through October 8, 2022, at the following rates: for [REDACTED], Petitioner’s incidents

decreased from approximately [REDACTED] for [REDACTED] Petitioner's incidents increased from approximately [REDACTED] for [REDACTED], Petitioner's incidents decreased from approximately [REDACTED] for [REDACTED], Petitioner's incidents decreased from approximately [REDACTED] for [REDACTED], Petitioner's incidents increased from approximately [REDACTED] and for [REDACTED] Petitioner's incidents decreased from approximately [REDACTED] *Id.* at 67-70.

5. In the treatment plan the following was noted:

Strengths: [Petitioner] is extremely intelligent and charismatic. [REDACTED] loves to help others and likes to have a job. [REDACTED] loves the opportunity to be a leader. Client can assimilate academic information easily, and [REDACTED] has great analytical skills.

...

Page 137 of RCE 1.

6. Petitioner requested continuation of BA services; specifically, 3,120 units of code 97153; 416 units of code 97155; and 104 units of code 97156. In a Notice of Outcome ("NOO"), dated November 4, 2022, Respondent terminated Petitioner's ABA services. The NOO explained the basis for the termination as follows:

[T]he requested services are not medically necessary under the following standard(s):

Consistent with generally accepted professional medical standards as determined by the Medicaid program, and not experimental or investigational.

The NOO further provided:

PR Clinical Rationale – Denial: According to the Florida Medicaid State Plan (Appendix 9.3.b), the data provided must show evidence that the frequency of the maladaptive behavior(s) has decreased since the last review and, if not, that there is a modification of the behavior plan. The provider was requested to provide procedural modifications that include additions/changes to treatment plan to impact behaviors targeted for reduction. The provider failed to respond to the request for procedural modifications. This request is denied.

...

Pages 28 – 29 of RCE 1.

7. Petitioner requested reconsideration of the Respondent’s decision. In a Notice of Reconsideration Determination (“NRD”), dated November 18, 2022, Respondent upheld its decision. *Id.* at 39. The NRD explained the basis for the decision as follows:

PR Recon Determination: At reconsideration all documents were carefully reviewed. According to the Florida Medicaid State Plan (Appendix 9.3.b), the data provided must show evidence that the frequency of the maladaptive behavior(s) has decreased since the last review and, if not, that there is a modification of the behavior plan. The recommendations for procedural modifications include: additions/changes to treatment plan to impact behaviors targeted for reduction. Procedural modifications should include one or more of the following: antecedent manipulation modifications, modifications of prompting procedures used in acquisition, modifications in consequence-based strategies - - ones that either reduce maladaptive behavior or reinforce replacement behavior (e.g., manipulation of reinforcement schedules, switch to a different decelerative procedure), or if lack of progress was due to therapist error (e.g., poor data collection or poor training on intervention methods), how the provider will address human error. The recommendations are insufficient to support continued care. This reconsideration request has been reviewed, reconsidered and the denial is upheld.

...

Pages 39 – 40 of RCE 1.

8. On November 17, 2022, Petitioner requested a Fair Hearing to challenge the termination of ABA services. *Id.* at 8. On January 23, 2023, the undersigned issued an Order Scheduling Fair Hearing and Prehearing Instructions, setting the hearing for February 14, 2023, at 9:00 a.m. EST.

9. Dr. Bicard is a Board Certified Behavior Analyst at the doctoral level. Dr. Bicard testified to the following at the Fair Hearing:

- a. Petitioner has been receiving BA services since [REDACTED]. Petitioner has demonstrated lack of progress.

- b. Petitioner's provider was requested to review and make modifications to the treatment plan to address Petitioner's lack of progress. Provider did not respond to the pend to modify the treatment plan.
- c. Upon reconsideration, Petitioner's provider submitted a treatment plan. Provider's treatment plan included treatment methods considered to be forms of punishment, which are unlikely to be approved when other reinforcement-based procedures are available. Punishment methods increase the probability of maladaptive behaviors and suppresses behavior around those that punish. Provider's treatment plan also expressed perspectives not within the conceptual system of BA, such as Petitioner willfully refusing tasks despite comprehension.
- d. Petitioner's is verbal and utilizes language skills, a fact that should be considered to develop programs to help Petitioner substitute language usage for maladaptive behaviors. Petitioner's strengths, including analytical skills, should be used to devise interventions to enhance said strengths, removing the need for maladaptive behaviors. Petitioner's progress in therapy is also not generalizable to other environments, necessitating intervention. There are no modifications in the treatment plan to suggest that Petitioner's strengths are being used to devise such interventions.
- e. Provider's treatment plan outlines the use of several contradictory protocols being used in conjunction with one another, for example Non-Contingent Reinforcement for attention cannot be used along with DRA and DRI, or Planned Ignore. Other protocols are mislabeled or listed with no individualization to

Petitioner. It was determined that the procedural modifications to the plan were insufficient to support continuation of care.

- f. The data depicting Petitioner’s maladaptive behaviors do not demonstrate improvement, with several data points depicting maladaptive behaviors occurring well above baseline. The data depicting Petitioner’s replacement behaviors are largely flat, do not demonstrate improvement, and exhibit an unexplained break in the graphs. This represents ineffective treatment below the standards of care for BA, as no intervention was recorded.
- g. The criteria for continuation of care outlined in the Behavior Analysis Services Coverage Policy require either a decrease in maladaptive behaviors or the modification of the treatment plan. Frequency of Petitioner’s maladaptive behaviors has not improved, and provider’s modifications are ineffective. The treatment plan does not meet criteria for continuation of care.

10. Mr. Mateo is Petitioner’s Lead Analyst. Mr. Mateo testified to the following at the Fair Hearing:

- a. Petitioner’s home life was [REDACTED], and Petitioner’s exposure to such [REDACTED] contributed to Petitioner’s lack of progress.
- b. Petitioner has been unable to generalize [REDACTED] progress because [REDACTED] home environment is [REDACTED]. Petitioner’s Registered Behavior Technician (“RBT”) became sick in [REDACTED], leaving Petitioner without service for one month. This negatively impacted Petitioner’s ability to generalize [REDACTED] progress within [REDACTED] school environment.

- c. Petitioner's maladaptive behaviors began trending downward when Petitioner's home life began to stabilize.
- d. The interventions in the treatment plan that can be considered punishment are stated in the plan to be a last resort, contingent upon Petitioner's failure to respond to preventive interventions.
- e. Provider understands that there is always a reason for Petitioner's behavior. The environmental factors hindering Petitioner's improvement are not within provider's control to ameliorate – for example, family therapy or counseling.
- f. Petitioner does not utilize communication or linguistic skills when upset or frustrated.
- g. The protocols described by Dr. Bicard as being contradictory are not being used at the same time. Rather, the treatment plan represents all protocols the provider is allowed to use on any particular day.

CONCLUSIONS OF LAW

11. The Agency's Office of Fair Hearings has jurisdiction over the subject matter of this proceeding and the parties pursuant to section 409.285(2), Florida Statutes (2019). This order is the final administrative decision of AHCA under section 409.285(2)(a).
12. This hearing was held as a *de novo* proceeding pursuant to Fla. Admin. Code R. 59G-1.100(17)(b).
13. Because Respondent terminated a previously approved service, Fla. Admin. Code R. 59G-1.100(17)(g) assigns the burden of proof to the Respondent. The standard of proof in an administrative hearing is a preponderance of the evidence. The preponderance of the evidence

standard requires proof by “the greater weight of the evidence” (Black’s Law Dictionary at 1201, 7th Ed.)

14. The Florida Medicaid Behavior Analysis Services Coverage Policy (October 2017) (“BA Policy”), incorporated by reference in Fla. Admin. Code. R. 59G-4.125, governs BA services available under Florida Medicaid. The BA Policy provides as follows:

1.0 Introduction

Behavior analysis (BA) services are highly structured interventions, strategies, and approaches provided to decrease maladaptive behaviors and increase or reinforce appropriate behaviors.

...

1.4.5 Medically Necessary/Medical Necessity

As defined in Rule 59G-1.010, F.A.C.

...

4.0 Coverage Information

4.1 General Criteria

Florida Medicaid covers services that meet all of the following:

- Are determined medically necessary
- Do not duplicate another service
- Meet the criteria as specified in this policy

4.2 Specific Criteria

Florida Medicaid covers the following BA services in accordance with the applicable Florida Medicaid fee schedule(s), or as specified in this policy:

4.2.1 Behavior Assessment

One per fiscal year, per recipient, when completed within 30 days of the start of the assessment.

4.2.2 Behavior Analysis

Up to 40 hours per week, per recipient, consisting of services identified on the recipient’s behavior plan in order to reduce maladaptive behaviors and to restore the recipient to his or her best functional level. Services include:

- Implementing behavior analysis interventions, and monitoring and assessing the recipient’s progress towards goals in the behavior plan
- Behavior analysis interventions, for example, discrete trial teaching, task analysis training, differential reinforcement, non-contingent reinforcement, conducting task analyses of complex responses, and teaching using chaining, prompting, fading, shaping, response cost, and extinction
- Training the recipient’s family, caregiver(s), and other involved persons on the implementation of the behavior plan and intervention strategies (the recipient must be present when clinically appropriate)

...

4.3 Early and Periodic Screening, Diagnosis, and Treatment

As required by federal law, Florida Medicaid provides services to eligible recipients under the age of 21 years, if such services are medically necessary to correct or ameliorate a defect, a condition, or a physical or mental illness. Included are diagnostic services, treatment, equipment, supplies, and other measures described in sectioned 1905(a) of the Social Security Act, codified in Title 42 of the United States Code 1396d(a). As such, services for recipients under the age of 21 years exceeding the coverage described within this policy or the associated fee schedule may be approved, if medically necessary. For more information, please refer to Florida Medicaid's General Policies on authorization requirements.

15. Appendix 9.0 of the BA Policy provides Review Criteria for Behavior Analysis Services.

These Review Criteria state as follows:

Review Criteria for Behavior Analysis Services

Behavior analysis (BA) services are considered as either the treatment of choice or as an adjunct treatment modality for a variety of conditions and disorders where maladaptive behaviors are part of the recipient's clinical presentation, including behavioral manifestations of diagnoses such as Autism Spectrum Disorder and other behavioral health conditions.

Critical Elements Necessary for ANY Type of Behavior Analysis Service:

The following critical elements **MUST** be satisfied to qualify for BA services:

- a. Eligibility – The recipient must meet all criteria for BA services as outlined in the Behavior Analysis Services Coverage Policy, Rule 59G-4.125, F.A.C.
- b. Medical necessity – The recipient must meet medical necessity criteria as outlined in Rule 59G-1.010, F.A.C.
- c. The recipient currently engages in maladaptive behaviors
- d. These maladaptive behaviors interfere with the recipient's daily functioning

1. Criteria for Initial Behavior Analysis Assessment - BOTH of the following **MUST** be satisfied:

- a. **ALL** critical elements are met
- b. Provide submits a valid written physician's order as stipulated in the Behavior Analysis Services Coverage Policy, Rule 59G-4.125, F.A.C.

2. Criteria for Behavior Analysis Services and Reassessments – ALL of the following **MUST** be satisfied:

- a. **ALL** critical elements are met

- b. An assessment or, if applicable, a reassessment, authored by a lead analyst, is provided. An assessment of the maladaptive behavior(s) is a necessary element of the process of identifying the frequency and magnitude of the behaviors as well as the variables associated with the occurrence of the maladaptive behavior(s). This helps in defining what are the functional consequences of the problem behavior(s) so that an adequate behavior plan can be implemented. This (re)assessment **MUST** include, at a minimum, **ALL** of the following:
 - i. A clear operational description of the maladaptive behavior(s)
 - ...
- c. A behavior plan authored or updated by a lead analyst. The behavior plan is the cornerstone of the delivery of behavior analysis services and it is based on the information obtained in the assessment. It proposes specific interventions to reduce or eliminate the maladaptive behavior. These interventions take into consideration the variables, both present before the behavior, as well as after the behavior, that influence the occurrence of the maladaptive behavior(s). This plan also includes replacement appropriate behaviors for the recipient to engage in instead of the maladaptive behaviors in order to obtain the same function. The plan must be detailed enough to warrant the requested services and include mechanisms to monitor its effectiveness. This **MUST** include, at a minimum, **ALL** of the following:
 - i. Observable and measurable descriptions of the maladaptive behavior(s)
 - ii. Identified function of the maladaptive behavior(s) behavior as a result of the assessment or reassessment conducted
 - iii. Goals and strategies for changing the maladaptive behavior(s)
 - iv. Written detailed description of when, where, and how often these goals will be addressed and proposed strategies will be implemented
 - v. System for monitoring and evaluating the effectiveness of the plan
 - vi. Safety and crisis plan, if applicable
 - vii. Summary and recommendations
 - viii. Discharge criteria
 - ix. Transition plan (if applicable)

NOTE: Although the assessment and behavior plan were addressed separately in section 2, both of them can be submitted as a single document.

3. Criteria for Continuation of Treatment at the Present Level and/or Using Current Methods: Providers must ensure that ALL of the following criteria are met to request continuation of treatments at the present level or using the current methods. If criteria for 3a is met, but criteria for 3b and/or 3c are not met, then a

reduction of the treatment level and/or change of treatment methods may be warranted.

- a. ALL criteria listed in 2a, 2b, and 2c regarding critical elements, assessment or reassessment, and behavior plan, are met.
- b. The data provided must show evidence that the frequency of the maladaptive behavior(s) has decreased since the last review and, if not, that there is a modification of the behavior plan.
- c. The level of functional impairment justifies continuation of BA services. The reviewer utilizes the information provided below as a guide as it relates to the level of functional impairment as expressed through the following behaviors:
 - i. Safety – aggression, self-injury, property destruction, elopement
 - ii. Communication – problems with expressive/receptive language, poor understanding or use of non-verbal communications, stereotyped, repetitive language
 - iii. Self-stimulating, abnormal, inflexible, or intense preoccupations
 - iv. Self-care – difficulty recognizing risks or danger, grooming, eating, or toileting
 - v. Other – behaviors not identified above

16. States must provide Early and Periodic Screening, Diagnostic, and Treatment (“EPSDT”) services to Medicaid-eligible children under age 21 when requested under the Medicaid state plan. See 42 U.S.C. § 1396a(a)(43); 42 U.S.C. § 1396d(a)(4). According to 42 U.S.C. § 1396d(r)(5), EPSDT services mean, in relevant part, the following items and services:

Such other necessary health care, diagnostic services, treatment, and other measures described in subsection (a) of this section to correct or ameliorate defects and physical and mental illness and conditions discovered by the screen services, whether or not such services are covered under the state plan.

17. Petitioner is under age 21, and therefore EPSDT applies to [redacted] request for services. However, a state may place medical necessity limitations on EPSDT services. See 42 C.F.R. §§ 440.230(a), (b), (d). Fla. Stat. § 409.905(2) limits EPSDT services with a medical necessity standard:

The [Agency] shall pay for early and periodic screening and diagnosis of a recipient under age 21 to ascertain physical and mental problems and conditions and all services determined by the agency to be medically necessary for the treatment,

correction, or amelioration of these problems and conditions, including personal care, private duty nursing, durable medical equipment, physical therapy, occupational therapy, speech therapy, respiratory therapy, and immunizations.

18. The Definitions Policy, incorporated by reference in Fla. Admin. Code R. 59G-1.010, defines “Medically Necessary” or “Medical Necessity” as follows:

The medical or allied care, goods, or services furnished or ordered must meet the following conditions:

- Be necessary to protect life, to prevent significant illness or significant disability, or to alleviate pain
- Be individualized, specific, and consistent with symptoms or confirmed diagnosis of the illness or injury under treatment, and not in excess of the patient’s needs
- Be consistent with generally accepted professional medical standards as determined by the Medicaid program, and not experimental or investigational
- Be reflective of the level of service that can be safely furnished, and for which no equally effective and more conservative or less costly treatment is available statewide
- Be furnished in a manner not primarily intended for the convenience of the recipient, the recipient’s caretaker, or the provider

The fact that a provider has prescribed, recommended, or approved medical or allied care, goods, or services does not, in itself, make such care, goods or services medically necessary or a medical necessity or a covered service.

19. The Florida Medicaid Authorization Requirements Policy (“Authorization Policy”), incorporated by reference in Fla. Admin. Code R. 59G-1.053, provides as follows:

3.2.1 Continued Authorization Requests

The QIO shall not deny or reduce the amount, frequency, or duration of a service that is already being provided, unless:

- The reduction is to correct for factual error or omissions in prior certifications.
- There is a documented improvement in the recipient’s medical condition.
- There is a documented change in the recipient’s circumstances.
- The reviewing physician determines the recipient will not gain any additional benefit by continuing services at the current level.

20. In the instant case, Respondent terminated Petitioner's ABA services. See ¶ 6. In the NOO dated November 4, 2022, Respondent explained that continuing services with current provider was not medically necessary, specifically, that it did not meet the requirement that services must be "consistent with generally accepted professional medical standards as determined by the Medicaid program, and not experimental or investigational." *Id.*

21. As provided by the EPSDT requirements, the recipient must meet the medical necessity criteria as outlined in Fla. Admin. Code R. 59G-1.010. As provided in section 2.83 of the Definitions Policy, a component of medical necessity is that services must be "consistent with generally accepted professional medical standards as determined by the Medicaid program, and not experimental or investigational." As shown by the record, Petitioner has not made significant progress during the previous authorization period. See ¶ 3. In fact, some of Petitioner's maladaptive behaviors have increased. *Id.* As Dr. Bicard explained, the graphs depicting Petitioner's maladaptive behaviors demonstrate several data points above baseline. See ¶ 8. Moreover, the graphs reflect that little, if any, progress has been made toward increasing Petitioner's success with replacement behaviors. See ¶ 4. Lastly, Dr. Bicard testified that Petitioner's provider is using incompatible protocols such as Non-Contingent Reinforcement for Attention along with DRA and DRI. See ¶ 9. In all, Dr. Bicard demonstrated that Petitioner has not made substantial improvements, as well as that the treatment plan was both ineffective and below the standard of care for Behavior Analysis, as it did not meet the criteria for continuation of care as determined by the Behavior Analysis Services Coverage Policy. *Id.*

22. As QIO for the Agency, eQHealth is authorized to terminate services when it is determined that "the recipient will not gain any additional benefit by continuing services at the current level."

See ¶ 19. As discussed, *supra* ¶ 21, Petitioner has made little progress in reducing ■■■ maladaptive behaviors and improving ■■■ replacement behaviors. See ¶ 3, 4. Accordingly, Respondent demonstrated that Petitioner would not gain any benefit on continuing services with ■■■ current provider.

23. Upon consideration of the testimony provided, evidence submitted, and applicable polices, the undersigned concludes that Respondent proved by a preponderance of the evidence that continuing ABA services with this provider was not medically necessary. Looking at all the evidence relevant to the particular needs of Petitioner, Respondent has demonstrated that the previously authorized services, based on the treatment plan at issue in this case, are not necessary to correct or ameliorate a defect or a physical and mental illness or condition. Accordingly, Respondent proved by a preponderance of the evidence that Respondent's termination of ABA services was correct.

IT IS HEREBY ORDERED AND ADJUDGED THAT:

Respondent's termination of ABA services is **AFFIRMED**. Petitioner's appeal based on Respondent's termination is **DENIED**.

DONE and ORDERED this 16th day of March, 2023, in Tallahassee, Leon County, Florida.
