OFFICE OF FAIR HEARINGS

[Redacted]

PETITIONER,

AHCA Case No.: 23-FH0433

vs.

**AGENCY FOR HEALTH CARE
ADMINISTRATION,**

RESPONDENT.

_____ /

FINAL ORDER

Pursuant to notice, the undersigned convened a telephonic Fair Hearing on the instant case on May 9, 2023, at 10:30 a.m. Eastern Standard Time ("EST").

APPEARANCES

For the Petitioner:

[Redacted]

Petitioner's Authorized Representative

For the Respondent:

Chrissie Simmons
Medical/Health Care Program Analyst
Agency for Health Care Administration

STATEMENT OF ISSUE

The issue is whether Respondent proved by a preponderance of the evidence that Respondent's decision to terminate Petitioner's Applied Behavior Analysis ("BA" or "ABA") services was correct.

PRELIMINARY STATEMENT

All parties and witnesses appeared telephonically. Petitioner’s Authorized Representative and [REDACTED]

Chrissie Simmons, Medical/Health Care Program Analyst for the Agency for Health Care Administration (“Agency” or “AHCA”), appeared on behalf of Respondent. Dr. Alyssa Conway (“Dr. Conway”), Medical Director for eQHealth Solutions Inc. (“eQHealth”) appeared as a witness for Respondent. Sandra Durden, Medical/Health Care Program Analyst appeared as an observer.

Interpreter Joseph Escarraman interpreter number 31579212 of Global Interpreting Network, appeared to offer translation services for Ms. Santos.

Prior to the hearing, Respondent sent to the Office of Fair Hearings and Petitioner a one hundred fifty-three (153)-page evidence packet and a forty-nine (49)-page evidence packet. The one hundred fifty-three (153)-page packet appears in the Office of Fair Hearings' document management system as the file titles “[REDACTED] FH 05.09.2023 1-119.pdf” and “[REDACTED] FH 05.06.2023 120-153.pdf.” The forty-nine (49)-page evidence packet appears in the Office of Fair Hearings document management system as the file title “23-FH0433_Behavior Analysis AHCA Evidence.pdf”. Absent an objection from the Petitioner, the undersigned admitted the one hundred fifty-three (153) page evidence packet into evidence as Respondent’s Composite Exhibit 1 (“RCE 1”) and the forty-nine (49)-page evidence packet into evidence as Respondent’s Composite Exhibit 2 (“RCE 2”).

FINDINGS OF FACT

February 9, 2023, Respondent terminated Petitioner's ABA services. *Id.* at 28 – 29. The NOO explained the basis for the termination as follows:

[T]he requested services are not medically necessary under the following standard(s):

Consistent with generally accepted professional medical standards as determined by the Medicaid program, and not experimental or investigational.

The NOO further provided:

PR Clinical Rationale – Denial: the documentation does not conform to the standards of applied behavior analysis, Behavior Analysis Service Coverage Policy and is not in accordance with the following medical necessity guidelines (2) be individualized, specific, and consistent with symptoms or confirmed diagnosis of the illness or injury under treatment, and not in excess of the patients needs (3)be consistent with generally accepted professional medical standards is determined by the Medicaid program, and not experimental or investigational. This plan contains graphs of replacement skills that do not conform to the standards of care and applied behavior analysis; As they display unconventional percentage values for four of the data paths (page 24 to 25) the provider was requested to review the graphs to ensure they conform to standards. The provider submitted the same graphs that do not conform to the standards of applied behavior analysis and are not in accordance with medical necessity guidelines. This request is denied.

...

Pages 28-29 of RCE 1.

5. Petitioner requested reconsideration of the Respondent's decision. In a Notice of Reconsideration Determination ("NRD"), dated March 2, 2023, Respondent upheld its decision.

Id. at 40-41. The NRD explained the basis for the decision as follows:

PR Recon Determination: At reconsideration all documents were carefully reviewed. According to the Florida Medicaid State Plan (Appendix 9.3 b), the data provided must show evidence that the frequency of the maladaptive behavior(s) has decreased since the last review and if not that there is a modification of the behavior plan. The recommendations for procedural modifications include additions slash changes to treatment plan to impact behaviors targeted for reduction. Procedural modification should include one or more of the following: antecedent manipulation modifications, modifications of prompting procedures used in acquisition, modifications in consequence based strategies ones that either reduce maladaptive behavior or reinforce replacement behavior (e.g.,

manipulation of reinforcement schedules switch to a different declarative procedure) or if lack of progress was due to therapist error (e.g., poor data collection or poor training on intervention methods), how the provider will address human error. The recommendations are insufficient to support continued care period this reconsideration request has been reviewed, reconsidered and the denial is upheld.

...

Pages 40 – 41 of RCE 1.

6. On March 1, 2023, Petitioner requested a Fair Hearing to challenge the termination of ABA services. On April 10, 2023, the undersigned issued an Order Scheduling Fair Hearing and Prehearing Instructions, setting the hearing for May 9, 2023, at 10:30 a.m. EST.

7. Dr. Conway is a Behavior Analyst and a second level reviewer for eQHealth. Dr. Conway testified to the following:

- a. Recipient has been receiving behavior analysis services since [REDACTED]
- b. Recipient was denied services based on medical necessity criteria.
- c. Referring to page 46 of Respondent's composite Exhibit 2, the data must show a reduction in maladaptive behavior and if there is no reduction there must be a modification in the treatment plan.
- d. The treatment plan does not meet the accepted criteria for behavior analysis. The graphs from the provider show Recipient is worsening. There is no improvement in maladaptive behaviors. The treatment plan does not show that there is any modification in the plan to accommodate or change the lack of improvement.
- e. The graphs from the provider reveal incorrect scales and metrics which do not conform with behavior analysis standards of care. For example, some of the graphs do not use a 100 scale, see page 68 of RCE 1.

- f. With some maladaptive behaviors that show progress at a 40% level these would be “chance” indicators, showing that the improvements may have happened whether or not there was behavior analysis intervention.
 - g. Based on the goals that Recipient has had since [REDACTED], more progress would be expected and since there has been no progress, Florida Medicaid mandates modification of treatment which has not occurred.
8. [REDACTED], BCBA with [REDACTED] testified to the following:
- a. The Recipient’s condition is extremely difficult to treat given that [REDACTED] has a [REDACTED]
 - b. [REDACTED] asserted that Petitioner has [REDACTED]
 - c. Recipient needs to be treated with compassion and love.
 - d. There is a crisis of violence in this country and Petitioner is at risk because [REDACTED]
[REDACTED].

CONCLUSIONS OF LAW

9. The Agency’s Office of Fair Hearings has jurisdiction over the subject matter of this proceeding and the parties pursuant to section 409.285(2), Florida Statutes (2019). This order is the final administrative decision of AHCA under section 409.285(2)(a).
10. This hearing was held as a *de novo* proceeding pursuant to Fla. Admin. Code R. 59G-1.100(17)(b).
11. Because Respondent terminated a previously approved service, Fla. Admin. Code R. 59G-1.100(17)(g) assigns the burden of proof to the Respondent. The standard of proof in an administrative hearing is a preponderance of the evidence. The preponderance of the evidence

standard requires proof by “the greater weight of the evidence” (Black’s Law Dictionary at 1201, 7th Ed.)

12. The Florida Medicaid Behavior Analysis Services Coverage Policy (October 2017) (“BA Policy”), incorporated by reference in Fla. Admin. Code. R. 59G-4.125, governs BA services available under Florida Medicaid. The BA Policy provides as follows:

1.0 Introduction

Behavior analysis (BA) services are highly structured interventions, strategies, and approaches provided to decrease maladaptive behaviors and increase or reinforce appropriate behaviors.

...

1.4.5 Medically Necessary/Medical Necessity

As defined in Rule 59G-1.010, F.A.C.

...

4.0 Coverage Information

4.1 General Criteria

Florida Medicaid covers services that meet all of the following:

- Are determined medically necessary
- Do not duplicate another service
- Meet the criteria as specified in this policy

4.2 Specific Criteria

Florida Medicaid covers the following BA services in accordance with the applicable Florida Medicaid fee schedule(s), or as specified in this policy:

4.2.1 Behavior Assessment

One per fiscal year, per recipient, when completed within 30 days of the start of the assessment.

4.2.2 Behavior Analysis

Up to 40 hours per week, per recipient, consisting of services identified on the recipient’s behavior plan in order to reduce maladaptive behaviors and to restore the recipient to his or her best functional level. Services include:

- Implementing behavior analysis interventions, and monitoring and assessing the recipient’s progress towards goals in the behavior plan
- Behavior analysis interventions, for example, discrete trial teaching, task analysis training, differential reinforcement, non-contingent reinforcement, conducting task analyses of complex responses, and teaching using chaining, prompting, fading, shaping, response cost, and extinction
- Training the recipient’s family, caregiver(s), and other involved persons on the implementation of the behavior plan and intervention strategies (the recipient must be present when clinically appropriate)

...

4.3 Early and Periodic Screening, Diagnosis, and Treatment

As required by federal law, Florida Medicaid provides services to eligible recipients under the age of 21 years, if such services are medically necessary to correct or ameliorate a defect, a condition, or a physical or mental illness. Included are diagnostic services, treatment, equipment, supplies, and other measures described in sectioned 1905(a) of the Social Security Act, codified in Title 42 of the United States Code 1396d(a). As such, services for recipients under the age of 21 years exceeding the coverage described within this policy or the associated fee schedule may be approved, if medically necessary. For more information, please refer to Florida Medicaid's General Policies on authorization requirements.

13. Appendix 9.0 of the BA Policy provides Review Criteria for Behavior Analysis Services.

These Review Criteria state as follows:

Review Criteria for Behavior Analysis Services

Behavior analysis (BA) services are considered as either the treatment of choice or as an adjunct treatment modality for a variety of conditions and disorders where maladaptive behaviors are part of the recipient's clinical presentation, including behavioral manifestations of diagnoses such as Autism Spectrum Disorder and other behavioral health conditions.

Critical Elements Necessary for ANY Type of Behavior Analysis Service:

The following critical elements **MUST** be satisfied to qualify for BA services:

- a. Eligibility – The recipient must meet all criteria for BA services as outlined in the Behavior Analysis Services Coverage Policy, Rule 59G-4.125, F.A.C.
- b. Medical necessity – The recipient must meet medical necessity criteria as outlined in Rule 59G-1.010, F.A.C.
- c. The recipient currently engages in maladaptive behaviors
- d. These maladaptive behaviors interfere with the recipient's daily functioning

1. Criteria for Initial Behavior Analysis Assessment - BOTH of the following **MUST** be satisfied:

- a. **ALL** critical elements are met
- b. Provide submits a valid written physician's order as stipulated in the Behavior Analysis Services Coverage Policy, Rule 59G-4.125, F.A.C.

2. Criteria for Behavior Analysis Services and Reassessments – ALL of the following **MUST** be satisfied:

- a. **ALL** critical elements are met

- b. An assessment or, if applicable, a reassessment, authored by a lead analyst, is provided. An assessment of the maladaptive behavior(s) is a necessary element of the process of identifying the frequency and magnitude of the behaviors as well as the variables associated with the occurrence of the maladaptive behavior(s). This helps in defining what are the functional consequences of the problem behavior(s) so that an adequate behavior plan can be implemented. This (re)assessment **MUST** include, at a minimum, **ALL** of the following:
 - i. A clear operational description of the maladaptive behavior(s)
 - ...
- c. A behavior plan authored or updated by a lead analyst. The behavior plan is the cornerstone of the delivery of behavior analysis services and it is based on the information obtained in the assessment. It proposes specific interventions to reduce or eliminate the maladaptive behavior. These interventions take into consideration the variables, both present before the behavior, as well as after the behavior, that influence the occurrence of the maladaptive behavior(s). This plan also includes replacement appropriate behaviors for the recipient to engage in instead of the maladaptive behaviors in order to obtain the same function. The plan must be detailed enough to warrant the requested services and include mechanisms to monitor its effectiveness. This **MUST** include, at a minimum, **ALL** of the following:
 - i. Observable and measurable descriptions of the maladaptive behavior(s)
 - ii. Identified function of the maladaptive behavior(s) behavior as a result of the assessment or reassessment conducted
 - iii. Goals and strategies for changing the maladaptive behavior(s)
 - iv. Written detailed description of when, where, and how often these goals will be addressed and proposed strategies will be implemented
 - v. System for monitoring and evaluating the effectiveness of the plan
 - vi. Safety and crisis plan, if applicable
 - vii. Summary and recommendations
 - viii. Discharge criteria
 - ix. Transition plan (if applicable)

NOTE: Although the assessment and behavior plan were addressed separately in section 2, both of them can be submitted as a single document.

3. Criteria for Continuation of Treatment at the Present Level and/or Using Current Methods: Providers must ensure that ALL of the following criteria are met to request continuation of treatments at the present level or using the current methods. If criteria for 3a is met, but criteria for 3b and/or 3c are not met, then a

reduction of the treatment level and/or change of treatment methods may be warranted.

- a. ALL criteria listed in 2a, 2b, and 2c regarding critical elements, assessment or reassessment, and behavior plan, are met.
- b. The data provided must show evidence that the frequency of the maladaptive behavior(s) has decreased since the last review and, if not, that there is a modification of the behavior plan.
- c. The level of functional impairment justifies continuation of BA services. The reviewer utilizes the information provided below as a guide as it relates to the level of functional impairment as expressed through the following behaviors:
 - i. Safety – aggression, self-injury, property destruction, elopement
 - ii. Communication – problems with expressive/receptive language, poor understanding or use of non-verbal communications, stereotyped, repetitive language
 - iii. Self-stimulating, abnormal, inflexible, or intense preoccupations
 - iv. Self-care – difficulty recognizing risks or danger, grooming, eating, or toileting
 - v. Other – behaviors not identified above

14. States must provide Early and Periodic Screening, Diagnostic, and Treatment (“EPSDT”) services to Medicaid-eligible children under age 21 when requested under the Medicaid state plan. See 42 U.S.C. § 1396a(a)(43); 42 U.S.C. § 1396d(a)(4). According to 42 U.S.C. § 1396d(r)(5), EPSDT services mean, in relevant part, the following items and services:

Such other necessary health care, diagnostic services, treatment, and other measures described in subsection (a) of this section to correct or ameliorate defects and physical and mental illness and conditions discovered by the screen services, whether or not such services are covered under the state plan.

15. Petitioner is under age 21, and therefore EPSDT applies to [redacted] request for services. However, a state may place medical necessity limitations on EPSDT services. See 42 C.F.R. §§ 440.230(a), (b), (d). Fla. Stat. § 409.905(2) limits EPSDT services with a medical necessity standard:

The [Agency] shall pay for early and periodic screening and diagnosis of a recipient under age 21 to ascertain physical and mental problems and conditions and all services determined by the agency to be medically necessary for the treatment,

correction, or amelioration of these problems and conditions, including personal care, private duty nursing, durable medical equipment, physical therapy, occupational therapy, speech therapy, respiratory therapy, and immunizations.

16. The Definitions Policy, incorporated by reference in Fla. Admin. Code R. 59G-1.010, defines “Medically Necessary” or “Medical Necessity” as follows:

The medical or allied care, goods, or services furnished or ordered must meet the following conditions:

- Be necessary to protect life, to prevent significant illness or significant disability, or to alleviate pain
- Be individualized, specific, and consistent with symptoms or confirmed diagnosis of the illness or injury under treatment, and not in excess of the patient’s needs
- Be consistent with generally accepted professional medical standards as determined by the Medicaid program, and not experimental or investigational
- Be reflective of the level of service that can be safely furnished, and for which no equally effective and more conservative or less costly treatment is available statewide
- Be furnished in a manner not primarily intended for the convenience of the recipient, the recipient’s caretaker, or the provider

The fact that a provider has prescribed, recommended, or approved medical or allied care, goods, or services does not, in itself, make such care, goods or services medically necessary or a medical necessity or a covered service.

17. The Florida Medicaid Authorization Requirements Policy (“Authorization Policy”), incorporated by reference in Fla. Admin. Code R. 59G-1.053, provides as follows:

3.2.1 Continued Authorization Requests

The QIO shall not deny or reduce the amount, frequency, or duration of a service that is already being provided, unless:

- The reduction is to correct for factual error or omissions in prior certifications.
- There is a documented improvement in the recipient’s medical condition.
- There is a documented change in the recipient’s circumstances.
- The reviewing physician determines the recipient will not gain any additional benefit by continuing services at the current level.

18. In the instant case, BA services were terminated as Respondent determined that the treatment was not “consistent with generally accepted professional medical standards as determined by the Medicaid program, and not experimental or investigational”. See ¶4. The provider submitted a plan containing graphs of replacement skills that do not conform to the standards of care in applied behavior analysis. *Id.* The provider was asked to revise the original graphs and instead submitted the same graphs again. *Id.*

19. As shown by the record, Petitioner has made little progress in reducing [redacted] maladaptive behaviors. See ¶ 3. For example, Petitioner made no improvement in regards to reducing [redacted]

[redacted]

[redacted]

[redacted]

standards of care in applied behavior analysis. See ¶ 7.

20. [redacted] expressed [redacted] care and concern for recipient but was unable to provide a sufficient explanation to overcome the testimony and evidence of Respondent. See ¶ 8.

21. Upon consideration of the testimony provided, evidence submitted, and applicable polices, the undersigned concludes that Respondent proved by a preponderance of the evidence that the termination of ABA services was necessary. Looking at all the evidence relevant to the particular needs of Petitioner, Respondent has demonstrated that the previously authorized services, based on the treatment plan at issue in this case are not necessary to correct or ameliorate a defect or a physical and mental illness or condition. Accordingly, Respondent proved by a preponderance of the evidence that Respondent’s termination of ABA services was correct.

IT IS HEREBY ORDERED AND ADJUDGED THAT:

Respondent's termination of ABA services is **AFFIRMED**. Petitioner's appeal based on Respondent's termination is **DENIED**.

DONE and **ORDERED** this 30th day of May, 2023, in Tallahassee, Leon County, Florida.
