OFFICE OF FAIR HEARINGS

[REDACTED]

PETITIONER,

AHCA Case No.: 24-FH1418

vs.

AGENCY FOR HEALTH CARE
ADMINISTRATION,

RESPONDENT.

_____ /

FINAL ORDER

Pursuant to notice, the undersigned convened a telephonic Fair Hearing on the instant case on June 14, 2024, at 1:07 p.m. Eastern Standard Time (“EST”).

APPEARANCES

For the Petitioner:

[REDACTED]

Petitioner’s Authorized Representative

For the Respondent:

Linda Latson

Registered Nurse Specialist

Agency for Health Care Administration

STATEMENT OF ISSUE

The issue is whether Respondent proved by a preponderance of the evidence that Respondent’s decision to terminate Petitioner’s Behavior Analysis (“BA” or “ABA”) services was correct.

PRELIMINARY STATEMENT

All parties and witnesses appeared telephonically. Petitioner’s Authorized Representative and [REDACTED], [REDACTED] (“[REDACTED]”) appeared on behalf of Petitioner. [REDACTED]

(“[REDACTED]”), Petitioner’s Board Certified Behavior Analyst (“BCBA”), appeared as a witness for Petitioner.

Linda Latson, Registered Nurse Specialist for the Agency for Health Care Administration (“Agency” or “AHCA”), appeared on behalf of Respondent. Dr. Kathy Hurley (“Dr. Hurley”), Board Certified Behavior Analyst (“BCBA”) at the Doctoral level, Florida licensed Mental Health counselor, and Second Level Reviewer for eQHealth Solutions Florida (“eQHealth”), attended as a witness for Respondent.

The following attended to offer translation services: Maria, interpreter number 387498; Alejandro, interpreter number 245772; and Nurivan, interpreter number 408872.

Petitioner did not introduce any documents at the Fair Hearing. Prior to the hearing, Respondent sent to the Office of Fair Hearings and Petitioner a 248-page evidence packet and a forty-nine (49)-page evidence packet. The 248-page packet appears in the Office of Fair Hearings’ document management system as the file titles: “[REDACTED] FH 06.14.2024 1 - 100.pdf”; “[REDACTED] FH 06.14.2024 101 - 154.pdf”; “[REDACTED] FH 06.14.2024 155 - 208.pdf”; and “[REDACTED] FH 06.14.2024 209 - 248.pdf”. The forty-nine (49)-page evidence packet appears in the Office of Fair Hearings document management system as the file title “24-FH1418 AHCA Evidence BA Services 49.pdf”. Absent an objection from the Petitioner, the undersigned admitted 248-page evidence packet into evidence as Respondent’s Composite Exhibit 1 (“RCE 1”) and the forty-nine (49)-page evidence packet into evidence as Respondent’s Composite Exhibit 2 (“RCE 2”).

FINDINGS OF FACT

1. Petitioner receives Medicaid services on a fee-for-service basis from the Agency. eQHealth is a Quality Improvement Organization contracted by the Agency to review prior authorization requests for services. See page 2 of RCE 2.

2. Petitioner is [REDACTED] See page 22 of RCE 1. Petitioner is diagnosed with [REDACTED].
Id.

3. As provided in Petitioner’s Behavior Analysis Re-Assessment (“treatment plan” or “behavior plan”), Petitioner is engaging in the following maladaptive behaviors: [REDACTED]
[REDACTED]; [REDACTED]; [REDACTED]; [REDACTED]; [REDACTED];
and [REDACTED]. *Id.* at 128 – 129.

4. Petitioner requested continuation of BA services; specifically, 3,120 units of code 97153; 312 units of code 97155; and 208 units of code 97156. In a Notice of Outcome (“NOO”), dated April 12, 2024, Respondent terminated Petitioner’s ABA services. The NOO explained the basis for the termination as follows:

[T]he requested services are not medically necessary under the following standard(s):

Individualized, specific, and consistent with symptoms or confirmed diagnosis of the illness or injury under treatment, and not in excess of the patient’s needs.

Consistent with generally accepted professional medical standards as determined by the Medicaid program, and not experimental or investigational.

The NOO further provided:

According to the Florida Medicaid State Plan (page 8, 6.2.3), the data provided must show evidence that the frequency of the maladaptive behavior(s) has decreased since the last review and, if not, that there is a modification of the behavior plan. The recommendations for procedural modifications include: additions/changes to treatment plan to impact behaviors targeted for reduction. Procedural modifications should include one or more of the following: antecedent manipulation modifications, modifications of prompting procedures used in

acquisition, modifications in consequence-based strategies- - ones that either reduce maladaptive behavior or reinforce replacement behavior (e.g., manipulation of reinforcement schedules, switch to a different decelerative procedure), or if lack of progress was due to therapist error (e.g., poor data collection or poor training on intervention methods), how you will address human error. The provider has not addressed the lack of progress during the last observation period and did not amend the treatment plan in relation to the lack of progress or the proposed changes have little chance at improving behavior. The information submitted does not meet standards of care within the field of behavior analysis. The request for services is denied.

...

Pages 31– 32 of RCE 1.

5. Petitioner requested reconsideration of the Respondent’s decision. In a Notice of Reconsideration Determination (“NRD”), dated May 2, 2024, Respondent upheld its decision. *Id.* at 43 – 44. The NRD explained the basis for the decision as follows:

PR Recon Determination: At reconsideration all documents were carefully reviewed. Calming/coping/relaxation strategies () are not empirically supported procedures within the conceptual system of behavior analysis for treatment the functions of maladaptive behavior. According to The Behavior Analysis Services Coverage Policy, (page 2, 1.1.) treatment that does not meet generally accepted standards of care within the field of applied behavior analysis are not covered under the behavior analysis service coverage policy. The supporting documentation does not meet generally accepted practices within the field of applied behavior analysis and standards set forth in the Florida Behavior Analysis Services Coverage Policy. Specifically, the provider has failed to write an intervention plan that upholds the standards of care of applied behavior analysis. The plan lists procedures that include punishment () and has not exhausted reinforcement-based strategies. There is no procedural safeguard or fading plan. The request was denied for lack of progress. The provider submitted additional documents including data in graphs that are not consistent with data that are typically reported in behavior analytic treatment. Many of the graphs for maladaptive behavior and skill acquisition show the same general pattern, level, and trend in the data. These data do not appear to have been accurately reported or observed and measured according to standards of care within the field of behavior analysis. This denial is upheld.

...

Page 44 of RCE 1.

6. On April 30, 2024, Petitioner requested a Fair Hearing to challenge the termination of ABA services. On May 20, 2024, the undersigned issued an Order Scheduling Fair Hearing and Prehearing Instructions, setting the hearing for June 14, 2024, at 1:00 p.m. EST.

7. Dr. Hurley is a BCBA-D. Dr. Hurley testified to the following:

- a. Petitioner needs ABA therapy, the reason for the termination is the documentation provided by the provider does not meet the standards of care of ABA therapy.
- b. A foundational principle of ABA is that therapy must be effective. Effectiveness is determined by the graphs that are provided by the provider in the treatment plan. All goals must show improvement, or show that there has been a change in the plan.
- c. The intervention “ [REDACTED] ” is not empirically supported as an effective treatment for reducing maladaptive behaviors. See page 150 of RCE 1.
- d. The graph for [REDACTED] shows little improvement until the end, where it goes [REDACTED] See page 129 of RCE 1.
- e. The graph for [REDACTED] follows a similar pattern as the graph for [REDACTED], which is unusual. See page 130 of RCE 1.
- f. The graph for [REDACTED] shows the behavior occurs at a very high rate and little improvement. See page 131 of RCE 1.
- g. It takes thirty (30) days for a behavior to become a habit.
- h. Every third data point without progress should be noted and a change should be made to the treatment plan.

- i. The graph for [REDACTED] is similar to the other behaviors, which calls into question the accuracy of the data collection. See ¶ 132 of RCE 1.
8. [REDACTED] is Petitioner’s BCBA. [REDACTED] testified to the following:
 - a. [REDACTED] agreed that the [REDACTED] should not be included in the treatment plan.

CONCLUSIONS OF LAW

9. The Agency’s Office of Fair Hearings has jurisdiction over the subject matter of this proceeding and the parties pursuant to section 409.285(2), Florida Statutes (2019). This order is the final administrative decision of AHCA under section 409.285(2)(a).
10. This hearing was held as a *de novo* proceeding pursuant to Fla. Admin. Code R. 59G-1.100(17)(b).
11. Because Respondent terminated a previously approved service, Fla. Admin. Code R. 59G-1.100(17)(g) assigns the burden of proof to the Respondent. The standard of proof in an administrative hearing is a preponderance of the evidence. The preponderance of the evidence standard requires proof by “the greater weight of the evidence” (Black’s Law Dictionary at 1201, 7th Ed.)
12. The Florida Medicaid Behavior Analysis Services Coverage Policy (September 2023) (“BA Policy”), incorporated by reference in Fla. Admin. Code. R. 59G-4.125, governs BA services available under Florida Medicaid. The BA Policy provides as follows:

1.0 Introduction

Behavior analysis (BA) services are highly structured interventions, strategies, and approaches provided to decrease maladaptive behaviors and increase or reinforce appropriate behaviors.

...

1.4.6 Medically Necessary/Medical Necessity

As defined in Rule 59G-1.010, F.A.C.

...

2.0 Eligible Recipient

...

2.2 Who Can Receive

Florida Medicaid recipients under the age of 21 years requiring BA services that are medically necessary to address behavior that impairs a recipient's ability to perform a major life activity. Such functional impairment is expressed through the following behaviors:

- Safety – aggression, self-injury, property destruction, elopement
- Communication – problems with expressive/receptive language, poor understanding or use of non-verbal communications, stereotyped, repetitive language
- Self-stimulating – abnormal, inflexible, or intense preoccupations
- Self-care – difficulty recognizing risks or danger, grooming, eating, or toileting
- Other behaviors not identified above but not limited to complexity of treatment, programming, or environmental variables

The recipient must be referred by an independent physician or practitioner qualified to assess and diagnose disorders related to functional impairment, including:

- Primary care physician with family practice, internal medicine, or pediatric specialty
- Board certified or board eligible physician with specialty in developmental behavioral pediatrics, neurodevelopmental pediatrics, pediatric neurology, adult or child psychiatry
- Child psychologist

The referral must include a comprehensive diagnostic evaluation (CDE) performed according to national evidence-based practice standards. CDEs may be performed by a multidisciplinary team or individual practitioner. In either case, the CDE must be led by a licensed practitioner working within their scope of practice. The CDE must include assessment findings and treatment recommendations appropriate to the recipient. For example, the CDE may include data from behavioral reports by parents, guardians, and/or teachers; diagnostic testing related to recipients' development, behavior, hearing, and/or vision; genetic testing; and/or other neurological and/or medical testing.

Some services may be subject to additional coverage criteria as specified in section 4.0.

...

4.0 Coverage Information

4.1 General Criteria

Florida Medicaid covers services that meet all of the following:

- Are determined medically necessary
- Do not duplicate another service
- Meet the criteria as specified in this policy

4.2 Specific Criteria

Florida Medicaid covers the following BA services in accordance with the applicable Florida Medicaid fee schedule(s), or as specified in this policy:

4.2.1 Behavior Assessment and Behavior Plan

A behavior assessment must be conducted prior to the initiation of behavior analysis interventions. The assessment must identify behavioral deficits that interfere with a major life activity including the events and subsequent interactions that elicit and sustain targeted behavior.

The initial assessment must include the administration, scoring, and reporting of two core standardized behavior instruments, as follows:

- Vineland-3 Comprehensive Parent Interview Form Including Maladaptive Behavior Domain, for all recipients
- Behavior Assessment System for Children, Third Edition, Parenting Relationship Questionnaire (BASC-3 PRQ), for all recipients 2 years old and less than 19 years old

The complete scoring report, including outcome measure scores, must be submitted with service prior authorization requests. Additional assessment tools may be used at the Lead Analyst's discretion.

The behavior plan identifies intervention strategies that are likely to eliminate, mitigate or replace the behavior to produce change sufficient to reengage the recipient in the major life activity. The plan must include specific behavior goal(s), intervention strategies for each goal, anticipated timeframes that are of sufficient duration to address the targeted behavior, and how the ongoing progress of intervention strategies will be reported.

The behavior plan must reflect the requested authorization period (up to six months).

A reassessment and updated behavior plan to renew prior authorization for continued services must be completed at least every six months. The core instruments must be included with reassessments every 12 months.

More frequent assessments must be conducted when:

- New behavior emerges that interferes with a recipient's participation in a major life activity
- Additional BA services are medically necessary and are likely to address the emergent behavior

A full reassessment may be requested if there is a change in provider; however, a change of a practitioner status (e.g., an RBT becoming certified as a BCaBA) is not grounds for conducting a reassessment or updating a behavior plan.

4.2.2 Behavior Analysis Interventions

Florida Medicaid covers up to 40 hours per week of BA intervention services as indicated in the recipient's prior-authorized behavior plan. These services must be delivered to reduce maladaptive behaviors and assist the recipient reach the best possible function level for that individual. Services include:

- Adaptive behavior treatment by protocol - behavior analysis services provided according to the authorized treatment protocol
 - o Services may be provided by Lead Analyst, BCaBA, or RBT
- Adaptive behavior treatment with protocol modification – behavior analysis services provided with modifications to the authorized treatment protocol to address behavior and/or response changes or progress
 - o Services may be provided by Lead Analyst or BCaBA
- Group adaptive behavior treatment by protocol – behavior analysis services provided in a group setting according to the authorized treatment protocol
 - o Maximum group size is six recipients
 - o Services may be provided by Lead Analyst, BCaBA, or RBT
- Group adaptive behavior treatment with protocol modification – behavior analysis services provided in a group setting with modifications to the authorized treatment protocol to address behavior and/or response changes or progress
 - o Maximum group size is six recipients
 - o Services may be provided by Lead Analyst or BCaBA
- Family adaptive behavior treatment guidance – parent, guardian, and/or caregiver training on the implementation of the behavior plan and intervention strategies
 - o The recipient may or may not be present depending upon clinical appropriateness.
 - o Services may be provided by Lead Analyst or BCaBA
 - o The Lead Analyst may provide up to two hours per week of training to parents or guardians via telemedicine in accordance with Rule 59G-1.057, Florida Administrative Code (F.A.C.)

...

4.2.4 Discharge

Recipients receiving Florida Medicaid BA services who meet one or more of the following will be considered for discharge from services:

- The recipient is no longer eligible for BA services as outlined in the Florida Medicaid Behavior Analysis Services Coverage Policy, incorporated by reference in Rule 59G-4.125, F.A.C.

- The recipient no longer meets medical necessity criteria as defined in Rule 59G-1.010, F.A.C.
- The recipient no longer engages in maladaptive behaviors.
- Data indicates the frequency and severity of maladaptive behavior(s) or level functional impairment no longer poses a barrier to the recipient's ability to function in his/her environment.
- The level of functional impairment as expressed through behaviors no longer justifies continued BA services.
- Parent or guardian withdraws consent for treatment

4.3 Early and Periodic Screening, Diagnosis, and Treatment

As required by federal law, Florida Medicaid provides services to eligible recipients under the age of 21 years, if such services are medically necessary to correct or ameliorate a defect, a condition, or a physical or mental illness. Included are diagnostic services, treatment, equipment, supplies, and other measures described in sectioned 1905(a) of the Social Security Act, codified in Title 42 of the United States Code 1396d(a). As such, services for recipients under the age of 21 years exceeding the coverage described within this policy or the associated fee schedule may be approved, if medically necessary. For more information, please refer to Florida Medicaid's Authorization Requirements Policy.

...

5.0 Exclusion

5.1 General Non-Covered Criteria

Services related to this policy are not covered when any of the following apply:

- The service does not meet the medical necessity criteria listed in section 1.0
- The recipient does not meet the eligibility requirements listed in section 2.0
- The service unnecessarily duplicates another provider's service

5.2 Specific Non-Covered Criteria

Florida Medicaid does not cover the following as part of this service benefit:

- Any procedure or physical crisis management technique that involves the use of seclusion or manual, technical, or chemical restraint utilized to control behaviors
- Services for the delivery of recipient supervision, personal care assistance (e.g., acting as a 1:1 aid), companion, chaperone, or shadow regardless of activity or setting. This may include supports and services that are reimbursed through a different Florida Medicaid service benefit or are able to be provided by individuals without professional skills or training.
- Caregiver or childcare services
- Psychological testing, neuropsychology, psychotherapy, cognitive therapy, sex therapy, psychoanalysis, hypnotherapy, or long-term counseling
- Services funded under section 110 of the Rehabilitation Act of 1973

- Services not listed on the fee schedule
- Services on the same day as behavioral health overlay services*
- Services on the same day as therapeutic behavioral on-site services*
- Services on the same day as therapeutic group care services*
- Services provided simultaneously by more than one BA provider, unless determined to be medically necessary, prior authorized, and indicated in the approved behavior plan
- Travel Time

* These services include behavior analysis treatment.

Florida Medicaid may cover some services listed in this section through a different service benefit.

6.0 Documentation

6.2 Specific Criteria

Providers must maintain the following documentation in the recipient's file:

6.2.1 Referral Information

Original referral documentation must be maintained in the recipient's medical record.

6.2.2 Behavior Assessment and Behavior Plan

The behavior assessment and behavior plan must be signed by the Lead Analyst and the recipient's parent or guardian. Each behavior assessment and behavior plan must include:

- Patient information
- Reason for referral
- Medical and developmental history, including medications prescribed to ameliorate behaviors
- Relevant family history
- Clinical interview
- Review of recent assessments/reports (file review)
- Assessment procedures and results
- Behavior plan
 - Treatment setting(s)
 - Proposed treatment targets, goals, and objectives related to medically necessary behavioral interventions
 - For each:
 - Definition in observable, measurable terms
 - Direct observation and measurement procedures
 - Current level (baseline)
 - Behavior reduction or acquisition procedures
 - Condition(s) under which behavior is to be demonstrated and mastery criteria
 - Date of introduction
 - Estimated date of mastery

- Plan for generalization
 - Timely reporting of progress, including statements as to whether goal or objective is met; not met; or, modified (with explanation)
- Parent/guardian/caregiver training
 - Proposed targets, goals, and objectives (as above)
 - Training procedures
 - Date of introduction
 - Estimated date of mastery
- Number of units requested
 - Number of units for each billing code
 - Medical necessity for units requested
- Supervision plan, including name(s) of authorized supervisor(s)
- Care coordination with parents/caregivers, schools, state disability programs, and others as applicable
- Transition (fading) plan
- Crisis management plan
- Discharge plan

6.2.3 Assessment and Behavior Plan for Reauthorization and Continuation of Services

In addition to the documentation requirements indicated in 6.2.2, subsequent assessments and behavior plans for reauthorization and continuation of services must include:

- Data reflecting progress of all behaviors targeted for improvement. Each behavior under treatment must have its own data table and corresponding graph.
- A narrative discussion of progress and a statement of justification for continuation of care at the intensity level requested

If significant clinical progress is not made over the course of an authorized period, the provider must explain why clinically significant progress was not made and treatment changes to promote progress.

...

Pages 1 – 8 of BA Policy.

13. States must provide Early and Periodic Screening, Diagnostic, and Treatment (“EPSDT”) services to Medicaid-eligible children under age 21 when requested under the Medicaid state plan. See 42 U.S.C. § 1396a(a)(43); 42 U.S.C. § 1396d(a)(4). According to 42 U.S.C. § 1396d(r)(5), EPSDT services mean, in relevant part, the following items and services:

Such other necessary health care, diagnostic services, treatment, and other measures described in subsection (a) of this section to correct or ameliorate

defects and physical and mental illness and conditions discovered by the screen services, whether or not such services are covered under the state plan.

14. Petitioner is under age 21, and therefore EPSDT applies to the request for services.

However, a state may place medical necessity limitations on EPSDT services. *See* 42 C.F.R. §§ 440.230(a), (b), (d). Fla. Stat. § 409.905(2) limits EPSDT services with a medical necessity standard:

The [Agency] shall pay for early and periodic screening and diagnosis of a recipient under age 21 to ascertain physical and mental problems and conditions and all services determined by the agency to be medically necessary for the treatment, correction, or amelioration of these problems and conditions, including personal care, private duty nursing, durable medical equipment, physical therapy, occupational therapy, speech therapy, respiratory therapy, and immunizations.

15. The Definitions Policy, incorporated by reference in Fla. Admin. Code R. 59G-1.010, defines “Medically Necessary” or “Medical Necessity” as follows:

The medical or allied care, goods, or services furnished or ordered must meet the following conditions:

- Be necessary to protect life, to prevent significant illness or significant disability, or to alleviate pain
- Be individualized, specific, and consistent with symptoms or confirmed diagnosis of the illness or injury under treatment, and not in excess of the patient’s needs
- Be consistent with generally accepted professional medical standards as determined by the Medicaid program, and not experimental or investigational
- Be reflective of the level of service that can be safely furnished, and for which no equally effective and more conservative or less costly treatment is available statewide
- Be furnished in a manner not primarily intended for the convenience of the recipient, the recipient’s caretaker, or the provider

The fact that a provider has prescribed, recommended, or approved medical or allied care, goods, or services does not, in itself, make such care, goods or services medically necessary or a medical necessity or a covered service.

16. The Florida Medicaid Authorization Requirements Policy (“Authorization Policy”), incorporated by reference in Fla. Admin. Code R. 59G-1.053, provides as follows:

3.2.1 Continued Authorization Requests

The QIO shall not deny or reduce the amount, frequency, or duration of a service that is already being provided, unless:

- The reduction is to correct for factual error or omissions in prior certifications.
- There is a documented improvement in the recipient’s medical condition.
- There is a documented change in the recipient’s circumstances.
- The reviewing physician determines the recipient will not gain any additional benefit by continuing services at the current level.

...

Page 3 of Authorization Policy.

17. In the instant case, Respondent terminated Petitioner’s ABA services. See ¶ 4. In the NOO dated April 12, 2024, Respondent explained that continuing services with the current provider was not medically necessary, specifically, that it did not meet the requirements that services must be “consistent with generally accepted professional medical standards as determined by the Medicaid program, and not experimental or investigational” and “individualized, specific, and consistent with symptoms or confirmed diagnosis of the illness or injury treatment, and not in excess of the patient’s needs.” *Id.* Respondent further explained that the “provider has not addressed the lack of progress during the last observation period and did not amend the treatment plan in relation to the lack of progress or the proposed changes have little chance at improving behavior.” *Id.*

18. As provided by the EPSDT requirements, the recipient must meet the medical necessity criteria as outlined in Fla. Admin. Code R. 59G-1.010. As provided in section 2.83 of the Definitions Policy, a component of medical necessity is that services must be “consistent with generally accepted professional medical standards as determined by the Medicaid program, and not

experimental or investigational.” As shown by the record, the graphs of Petitioner’s behavior show little improvement. See ¶ 7. Moreover, Dr. Hurley called into the question the veracity of the graph data as Petitioner’s behaviors followed a similar trend. See ¶ 7. Lastly, the treatment plan includes an intervention, [REDACTED], that is not covered. As Petitioner has not made substantial improvements, and as no intervention was made throughout the authorization, the record shows that Petitioner will not gain any additional benefit by continuing services with the current provider. In all, Respondent demonstrated that the services rendered were not consistent with generally accepted professional medical standards” within the field of ABA. Accordingly, it was shown that is not medically necessary for Petitioner to continue services with the current provider.

19. As QIO for the Agency, eQHealth is authorized to terminate services when “the reviewing physician determines the recipient will not gain any additional benefit by continuing services at the current level.” See ¶ 16. As discussed, *supra* ¶ 18, Petitioner has not made progress in reducing her maladaptive behaviors.

20. Upon consideration of the testimony provided, evidence submitted, and applicable polices, the undersigned concludes that Respondent proved by a preponderance of the evidence that the termination of ABA services was necessary. Looking at all the evidence relevant to the particular needs of Petitioner, Respondent has demonstrated that the previously authorized services, based on the treatment plan at issue in this case, are not necessary to correct or ameliorate a defect or a physical and mental illness or condition. Accordingly, Respondent proved by a preponderance of the evidence that Respondent’s termination of ABA services was correct.

IT IS HEREBY ORDERED AND ADJUDGED THAT:

Respondent's termination of ABA services is **AFFIRMED**. Petitioner's appeal based on Respondent's termination is **DENIED**.

DONE and **ORDERED** this 28th day of August 2024, in Tallahassee, Leon County, Florida.
